CHILD CARE PROGRAMS: WHAT'S THE COST?

There is a big difference between the annual cost of providing high-quality child care, state-provided child care subsidies, and what families can afford. Many child care programs subsidize this difference with low salaries and other cuts that hurt their workforce and bottom line.

ESTIMATED REGIONAL IMPACT TO EMPLOYERS

\$448M annual cost employers incur due to lack of child care.

29,814 workers with children under six years old **quit** a job due to child care issues.

20,704 workers with children under six years old **fired** from work due to child care issues.

WHAT BUSINESSES SHOULD KNOW

\$1 ⇒ \$3

Invest & Return

Every dollar invested in early childhood development yields a 3X return to the community.

Invest

Each low-income preschool age child in our region needs an investment of ~\$25k per year, over 3 years, in order to receive high-quality early care and education.

Develop

By ensuring the development of the most critical skills in early childhood, children begin school ready to succeed.

Sustain

Strong K-12 and higher education systems and jobs that pay a family wage build on our investments.

GAIN \$225K

Per-child return on investment, students and communities see increased wages; less need for supplemental services; and healthier, more robust local economies.
