

# DATA ANALYST

Dongzi Matsuoka  
eBay

*“Try to participate in more activities in school besides just class.”*

#ShelsSTEM

Dongzi loves solving problems. After studying Math and Statistics at UW she was ready to be a Data Analyst at eBay. Her daily work starts with a question. Then she uses statistical modeling or machine learning to answer the question. Currently she is following the same process to help call center improve overall customer satisfaction scores.

**PROTIP:** You don't need to wait to be assigned to tasks. Provide ideas, make suggestions and be proactive.
