

MEDICAL CENTER MANAGER

Tina Asimwe
Kaiser Permanente

“One of the most rewarding parts of being a manager is inspiring and engaging teams. There is no function of excellence without a well-motivated team.”

#ShelsSTEM

When Tina was seen by an uncaring doctor as a child, she knew that she wanted to go into healthcare and be better. Now, Tina oversees all clinical operations from seeing patients to ensuring the quality care of all of the clinic's patients. All her hard work has paid off: through her leadership the clinic has had the highest improvement in quality care and enrollment among all Kaiser Permanente Clinics in 2017.

FUN FACT: To connect members of the African immigrant community, Tina started the Northwest African Pageant, an inclusive pageant for African Women in Seattle.
