## Eugenie Farrow
## Spokane Valley Tech - Central Valley School District, WA

*Having diverse voices and points of view makes products and projects better in terms of value to customers and users in general. It makes for better design outcomes. Women bring that to STEM."*

#SheIsSTEM

Eugenie Farrow is a computer science teacher at Spokane Valley Tech where she helps students learn how to solve problems using computers and prepare for college and future jobs. Teaching is her second career! She became a teacher after retiring from IBM, where she worked as a mainframe computer programmer.

**FUN FACT:** Eugenie loves to dance! She has taken classes in tap, salsa, and tango.
