

SENIOR SOFTWARE SECURITY ENGINEER

Andrea Frost
Dell Technologies

"I think a big reason why people give up on their dreams is because they feel like they don't belong. But I think that women belong wherever we want to be."

-Andrea Frost
#ShelsSTEM

After a life-changing trip to India in her 20s, Andrea Frost decided to pursue a career in computer science. Now, as a Senior Software Security Engineer at Dell Technologies, she is carving out a space of belonging for other women in tech.

FUN FACT: After living through a 7.1 earthquake in Alaska a few years ago, Andrea had an "existential check-in" and was inspired to learn how to play the ukulele and guitar.
